

Answers to 10 Trees a Day 2

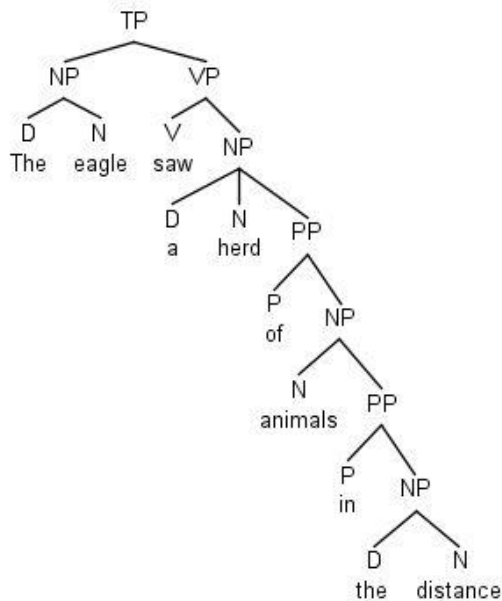

1. The tiny mouse was shaking in fear.

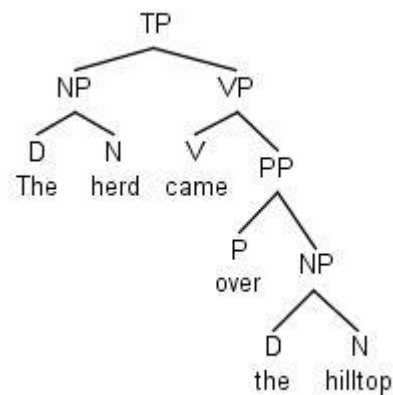

2. The cloud of dust grew larger.

3. The eagle saw a herd of animals in the distance.¹

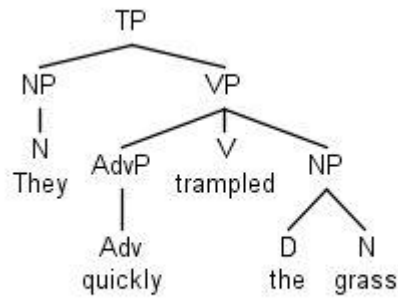

4. The herd came over the hilltop.

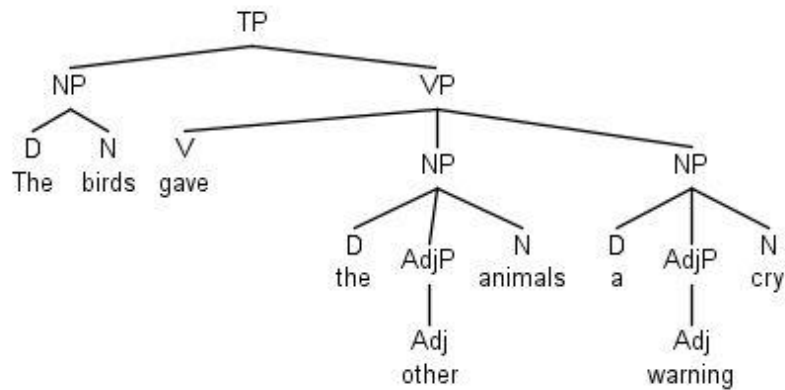

¹ Note, this sentence could theoretically be ambiguous. The reading I gave is that the animals are in the distance. If the eagle saw in the distance, it would have a different structure, which I will give at the end.

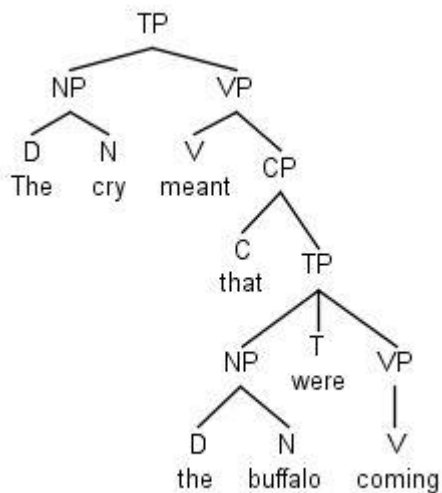

5. They quickly trampled the grass.

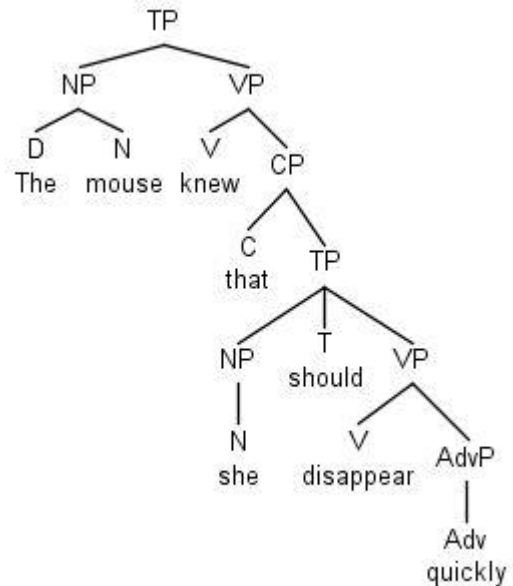

6. The birds gave the other animals a warning cry.

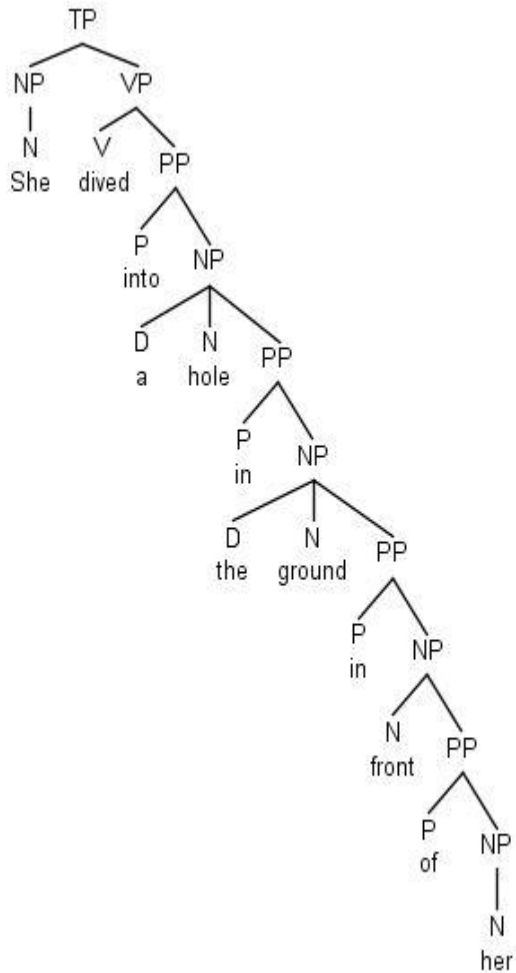

7. The cry meant that the buffalo were coming.

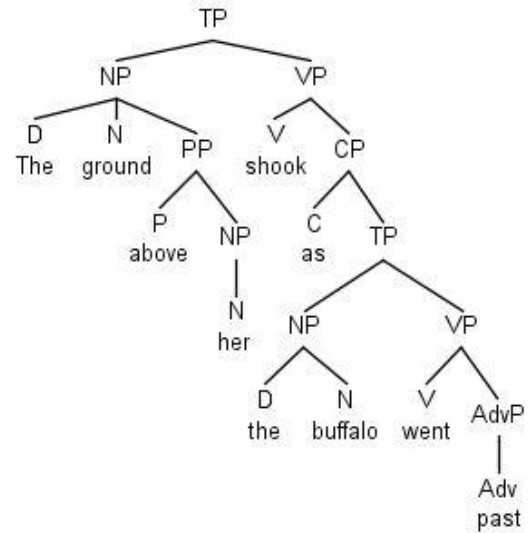

8. The mouse knew that she should disappear quickly.

9. She dived into a hole in the ground in front of her.

10. The ground above her shook as the buffalo went past.

Alternate structure of #3. I do not like this one as much because it's hard for me to interpret the eagle seeing in the distance, whereas it's very natural for me to interpret the buffalo being in the distance.
